Improper batter still at bat	Improper batter on base, but no pitch yet to next batter	Improper batter on base and pitch made to next batter
	<b>+</b>	
Replace the improper batter with the proper batter	Send improper batter back to dugout	Improper batter normalized; he is now "proper runner"
Proper batter assumes existing count	Nullify all action resulting from improper at-bat	Next batter: the player following the newly normalized "proper runner"
No penalty	Identify the proper batter and call him out	No penalty
	Next batter: the player following the proper batter (who you just called out)
